

PU STONE

Mushroom stone front

Back of Mushroom Stone

Restore the most original texture of stone, let you see different stone

Polyurethane
Class B2 fireproof new

What do you think of when discussing stone as a material with designers?

The disadvantages of heavy, rough, and troublesome handling make many designers discouraged from it.

However, society is always improving, and materials are also changing with each passing day.

Lightweight PU light pottery stone now let designers who love stone materials see a new direction of design.

Polmaterial Restore the most original texture of stone, let you see different stone

Waterproof and mildew proof
Does not absorb
No milde

Features

■ **Fast:** The direct installation time and the time required for the whole project are short, far less than the installation time of traditional cultural stones.

■ **Lightweight:** because it is made of high-tech materials, it is light in weight and does not require the cooperation of other machines, and can be installed by a single person.

■ **Durability:** The product is made of polymer materials and sprayed with multiple layers of high-strength paint to make it acid-resistant, sun-proof, and UV-resistant, making it more durable.

■ **Easy to install:** The product is designed as an inner card structure with tongue edges, grooves and reserved seams. Most of the work does not require caulking, and can be installed directly with screws or gun nails.

■ **Real appearance:** The mold of the product is finely polished according to real stone, coupled with special processing to make the appearance of the product more delicate, which is no different from real stone.

Name	NO.	Size	Weight	Pcs/Box
PU Mushroom Stone	MGS-50	1200*600*50mm	50mm-1.5kg/PCS	10PCS
	MGS-60	1200*600*60mm	60mm-1.6kg/PCS	11PCS
	MGS-80	1200*600*80mm	80mm-2.0kg/PCS	8PCS
